Description

This indoor wall mounted, single door fiber optic distribution management cross connect enclosure is ideal for end terminations of fiber optic runs in residential or commercial buildings. The 15-345-048 comes with 48 SC simplex coupler ports installed with 48x SC/UPC single mode pigtailed ready for splicing. In addition to the fiber pigtailed and couplers, the 15-345-048 comes with a fiber optic splice tray & cable management which helps maintain a bend radius greater than 1.6 in [40mm]

This wall mounted configuration permits positive fiber management, connectivity and distribution of 48 incoming fiber optic cable channels. All the cross connectivity functions of splicing, termination, and interconnection for your plant, backbone and in-building fiber cabling can be included in the enclosures to protect and ease the organization of your installations. This wall mount enclosure provides a professional economical solution for protection of critical network components. This enclosure is fabricated of SPCC steel offering protection from damage in stand-alone locations and in network closets. The cable entry points are fully protected and provide easy access
